

Statement: Glenealy Plantations through its Belaga Mill Reiterates Commitment to NDPE Compliance and Responsible Sourcing

Glenealy Plantations is resolute in its dedication to maintaining the highest environmental and social standards throughout its operations and supply chains. We unequivocally endorse the engagement strategy that SD Guthrie employs to clearly and constructively address recent developments regarding deforestation activities associated with Urun Plantations and the Belaga mill.

We wholeheartedly support the measures implemented to ensure accountability and foster positive change on-site, including Urun Plantations' commitment to enforce a cessation of work orders and a moratorium on new land development.

We encouraged Urun Plantations to comply with the No Deforestation, No Peat, and No Exploitation (NDPE) policy, conduct an objective third-party assessment of their operations, and formulate a credible, time-bound remediation plan.

Glenealy Plantations (Belaga Mill) , as a responsible firm dedicated to sustainability, will **suspend purchases of FFB from Urun Plantations with immediate effect** until satisfactory NDPE compliances are in place.

Glenealy Plantations will continue to monitor the situation and collaborate with our partners, suppliers, and stakeholders to foster transparency, accountability, and ongoing improvement throughout the value chain of palm oil. Please see:
