

GLENEALY PLANTATIONS SDN BHD

Environmental Policy

It is our policy as a responsible and sustainable group, that we will ensure a safe, healthy and environmental friendly working environment in the conduct of our plantation and milling operation.

It is our commitment that all our employees' companywide undertake environmental care and protection as a joint responsibility and obligation.

To achieve this objective, we will strive to: -

- Comply with all legislative requirements.
- Comply with regulations concerning domestic waste, schedule waste and clean air emission.
- Conserve and protect natural resources or waterways.
- Enhancing well - balanced biodiversity of wildlife and natural habitat protection.
- Ensure there is no open burning activity in our premises.
- Develop individual responsibilities to ensure the environmental quality is protected.
- Promote continuous monitoring and improvement on environmental aspects and standards.

The commitment and co-operation towards environmental and people protection, enables us to implement a systematic approach to ensure sustainable production of palm oil and ensuring continuous improvement in all aspects, which is become our company's priority.
